SAFETY DATA SHEET
FOR COATINGS, RESINS AND RELATED MATERIALS

Revision Date: June 2016
Poly (Vinyl Chloride) Plastisol
FOR COATINGS, RESINS AND RELATED MATERIALS

1. CHEMICAL PRODUCT and COMPANY INFORMATION

Manufacturer’s Name: Plato Industries, Ltd.
2020 Holmes Rd., Houston, TX 77045 USA
Telephone: (713) 797-0406

Emergency Telephone: CHEMTREC: 1-800-424-9300 (Spill Related Emergencies)
PROSAR: 1-800-241-7439 (Health Related Emergencies)

Product Name: Poly (Vinyl Chloride) Plastisol
Manufacturer’s ID: T-004
Trade Name: Plato Industries Plastisol

2. COMPOSITION/INFORMATION ON HAZARDOUS INGREDIENTS
There are no known hazardous components above regulatory thresholds in this product.

3. HAZARDOUS IDENTIFICATION

EMERGENCY OVERVIEW
This mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. However, some vapors or contaminants may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. See sections 8 and 11 for special precautions.

POTENTIAL HEALTH EFFECTS
Routes of Exposure: Inhalation, Skin contact, Ingestion

Acute Exposure:
Inhalation: None known.
Ingestion: May be harmful if swallowed.
Eyes: May cause eye/skin irritation.
Skin: Experience shows no unusual dermatitis hazard from routine handling.

Chronic exposure:
Medical Conditions

Aggravated by Exposure: None known.
4. FIRST AID MEASURES

Inhalation: Move to fresh air in case of accidental inhalation of fumes from overheating or combustion. When symptoms persist or in all cases of doubt seek medical advice.

Ingestion: Do not induce vomiting without medical advice. When symptoms persist or in all cases of doubt seek medical advice.

Eyes: Rinse immediately with plenty of water for at least 15 minutes. If eye irritation persists, seek medical attention.

Skin: Wash off with soap and plenty of water. If skin irritation persists seek medical attention.

5. FIRE FIGHTING MEASURES

Flash point: No data available
Flammable Limits:
Upper Explosion Limit: No data available
Lower Explosion Limit: No data available
Autoignition Temperature: Not applicable
Suitable Extinguishing Media: Carbon dioxide blanket, water spray, dry powder, foam.

Special Fire Fighting Procedures: Fullface self-contained breathing apparatus (SCBA) used in positive pressure mode should be worn to prevent inhalation of airborne contaminants.

Unusual Fire/Explosion Hazards: May emit Hydrogen Chloride (HCl) or Carbon Monoxide (CO) under fire conditions. Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.

Environmental precautions: The product should not be allowed to enter drains, water courses or the soil. Should not be released into the environment.
Methods for cleaning up: Soak up with inert absorbent material (e.g. sand, universal binder, sawdust). Package all material in appropriate container for disposal. Refer to Section 13 of this MSDS for proper disposal methods.

7. HANDLING AND STORAGE

Handling: Heat only in areas with appropriate exhaust ventilation. Processing fume condensates may contain combustible or toxic residue. Periodically clean hoods, ducts, and other surfaces to minimize accumulation of these materials.

Storage: Keep containers dry and tightly closed to avoid moisture absorption and contamination. Store in a cool dry place away from heat above 90° F and direct sunlight.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory protection: No personal respiratory protective equipment normally required.

Eye/ Face Protection: Safety glasses with side-shields.
Hand protection: Protective gloves.
Skin and body protection: Long sleeved clothing.
Additional Protective Measures: Safety shoes.
General Hygiene Considerations: Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

Engineering measures: Heat only in areas with appropriate exhaust ventilation. Provide appropriate exhaust ventilation at machinery.

Exposure limit(s): There are no known hazardous components above regulatory thresholds in this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form: Liquid
Appearance: Viscous, liquid
Color: White
Odor: Very faint
Melting point/range: Not applicable
Boiling Point: Not applicable
Water solubility: Immiscible

Evaporation rate: Not established
Specific Gravity: Not determined
Bulk Density: Not applicable
Vapor Pressure: Not determined
pH: Not applicable
10. STABILITY AND REACTIVITY

Stability: Stable.

Hazardous Polymerization: Will not occur.

Conditions to avoid: Keep away from open flame and direct sunlight or temperatures above 90°F. To avoid thermal decomposition, do not overheat.

Incompatible Materials: Incompatible with strong acids and oxidizing agents.

Hazardous decomposition products:
Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), hydrogen chloride (HCl), other hazardous materials, and smoke are all possible. Prolonged heating may result in product degradation. As a general rule of thumb, degradation begins to occur after one hour at 177 °C (350 °F), after 10 minutes at 204 °C (400 °F), and within 5 minutes at 232 °C (450 °F).

11. TOXICOLOGY INFORMATION

There are no known hazardous components above regulatory thresholds in this product.

12. ECOLOGICAL INFORMATION

Persistence and degradability: Not readily biodegradable.
Environmental Toxicity: Environmental toxicity has not been established for this mixture as a whole.
Bioaccumulation Potential: No data available
Additional advice: No data available

13. DISPOSAL CONSIDERATIONS

Product: Where possible recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.
Contaminated packaging: Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.

14. TRANSPORT INFORMATION

U.S. DOT Classification: Refer to specific regulation.
ICAO/IATA (air): Refer to specific regulation.
IMO / IMDG (maritime): Refer to specific regulation.

15. REGULATORY INFORMATION

US Regulations:
OSHA Status: There are no known hazardous components above regulatory thresholds in this product.
TSCA Status: All components of this product are listed on or exempt from the TSCA Inventory.
US. EPA CERCLA Hazardous Substances (40 CFR 302):
California Proposition 65:
SARA Title III Section 302 Extremely Hazardous Substance:
SARA Title III Section 313 Toxic Chemicals:
Not applicable
Not applicable
Not applicable

16. OTHER INFORMATION

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material when used in combination with any other materials and/or in any particular process or processing conditions.
